HARD GAME TO LOSE.

After Taking a Good Long Lead Motz's Men Go to Pieces. Thirty-five hundred people saw Motz's men take a good, honestly earned, comfortable lead in yesterday's game, and then saw them lay down at the finish and let Teledo trample over them. When Canavan, who ordinarily is as cool and clear-headed as any ball player in the country, goes into a trance and not only fails to recognize what to do with it when he gets it, there is little left to be wondered at. It was a wretched finish of what had been, up to the eighth, a fine game of ball, and Manager Watkins went away in anything but a pleasant frame of mind. In fact, he said just after the game that he didn't think his team capable of playing such very bad ball With a lead of six runs, Fisher had the visitors at his mercy in the eighth, for after Gilks had hit safe, Hartman rolled in easy one to Newell, which was fumbled and Weddige bounded another, even easier to Canavan, who also fumbled it. Carnet flew to McCarthy and Gilks scored, Conor reached first on balls and the corners were again filled, when Niland lifted a fly o right, which Gettinger, after misjudging got under and muffed. He picked it up and hrew it into the diamond, where Canavan and Newell, between them, managed to kick it about until three more runs were n and Niland was on second. Gallagher hen flew to Newell and Nops struck out. After this disheartening exhibition Fisher weakened and the Toledos strengthened in roportion. They were full of confidence when they went to bat in the last of the ninth. Roach hit out a two-bagger to left center. Gilks a single in the same direction, and, before the crowd could catch its individual and collective breath, Hartman drove line hit straight over Hogan's head for a home run, and away went the game. Manager Long put Petty in yesterday with gards that pitcher as his star. For a few moments only it looked as if he would justify this estimate, as he struck Hogan out for a starter. McCarthy, however, hit along the right foul line for three bases and Newell lifted the ball to the left cen-ter tence for a similar number. Canavan drove a victous-looking fly which Gallagher caught, Newell scoring, Motz placed a had hit the ball, and scored on Niland's wild throw to head him off at third. Weddige made a great catch of McFarland's fly and retired the side. This was enough for Long and he took Petty out and put in Nops another left-handed pitcher, who, after he got used to things, made it decidedly interesting for Indianapolis. They opened on him in good shape, picking up three more runs in the second on Gettinger's base on bails, Roat's two-bagger, singles by Hogen and McCarthy, and stellar singles by Hogan and McCarthy, and stolen ases by the last named individuals. After that they did comparatively little business with young Mr. Nops. Niland's wild throw in the fourth, Fisher's life, Hogan's sacri-fice and McCarthy's hard single to center

first three innings, and he was almost immediately caught at second trying to steal hat base. It was almost a case of one, two, three in the fourth inning for them, but one man reaching first. In the fifth, however, they earned two on Carney's scratch single and three clean hits by Connor, Niland and Nops. In the seventh they cicked another on singles by Carney and land and Canavan's fumble of Nops's easy grounder. In this inning Connor hit an ugly fly to Gettinger of which the latter made a wonderful catch. He also made an almost equally remarkable throw to first base and came near doubling Carney on the play. The eighth inning has already been described, and there is no use in reviewing again its agonizing details. There was some good playing done, but it was so overshadowed by the horrible work in the latter part of the game that it is scarcely worth while referring to it. Toledo put up a fairly good game, but profited as has been shown more by the errors of Motz's men than by their own good work. This much can be said, however, and that is that in Nops they have a clever young pitcher, who handles himself like a vetthe Indianapolis team all and more than they could attend to yesterday. The two teams left immediately after the game for Toledo, where they play to-day and to-merrow. Indianapolis returns home Tuesday and commences a series with Kansas

TO BE REORGANIZED

NORTHERN PACIFIC RAILWAY TO BE PUT ON A SOLID BASIS.

To Be Foreclosed by German Bondholders and a New Company Formed-Mr. Hill Returns.

BERLIN, May 18 .- For the past four days meetings of the United German Northern errors—Louisville, 2; Boston, 1. Left on Pacific committees have been considering bases—Louisville, 8; Boston, 5. Bases on the proposals of Mr. Adams, the representative of the Deutsche Bank of Berlin. for the reorganization of the Northern Pacific railroad, and they have finally authorized him to carry out his plan which the bondholders will be recommended to accept. The first point of the Adams reorganization plan is foreclosing of the old company and the formation of a new company under special arrangements for this

> Secondly, the new company is to issue shares to the amount of \$100,000,000 and a maximum of \$200,000,000 gold bonds, free of taxation. A sufficient amount of these bonds is to be preserved in order to replace the present first mortgage bonds later and \$3,000,000 of bonds are to be reserved in order to acquire independent branch roads, and for new construction at a maximum charge of \$20,000 per mile. The new bonds will be secured by a mortgage lien on the whole Northern Pacific system, including the St. Paul & Northern railroad line and will bear interest partly at 4 and partly at 3 per cent, all under the same mortgage, Thirdly, the capital and interests of the new bonds are to be guaranteed unconditionally by the Great Northern company by indorsing each bond, the Great Northern company receiving in return half the stock of the new company. Fourthly, the board of directors of the new company is to consist of nine directors, four of whom are to be nominated by the Northern Pacific reorganization committee. Fifthly in accordance with this scheme there shall be given for each \$1,000 Northern Pacific second mortgage bonds a \$1,125 new 4 per cent. guaranteed bond; (B.) for a \$1,000 third mortgage bond, a \$1,000 new 3 per cent. guaranteed bond, and at least \$250 in shares; (C) for each \$1,000 5 per cent consol at least \$500 3 per cent. new guaranteed bond and \$300 in shares. Sixthly, that overque coupons of the second mortgage be paid in cash at the rate of per cent. annually. Those of the third mortgage are to be paid in cash at the rate of 4 per cent, and those in consols are to be adjusted at the rate of 212 per cent. in new 3-per-cent, bonds. Seventhly, the floating debt of the receivership is to be paid by the assessment of about \$11,000,000 on the old stock. Eighthly, the reorganization and the raising of the necessary working capital is to be secured by a syndicate headed by Messrs. J. Pierpont Morgan and the Deutsche Bank.

PRESIDENT HILL RETURNS.

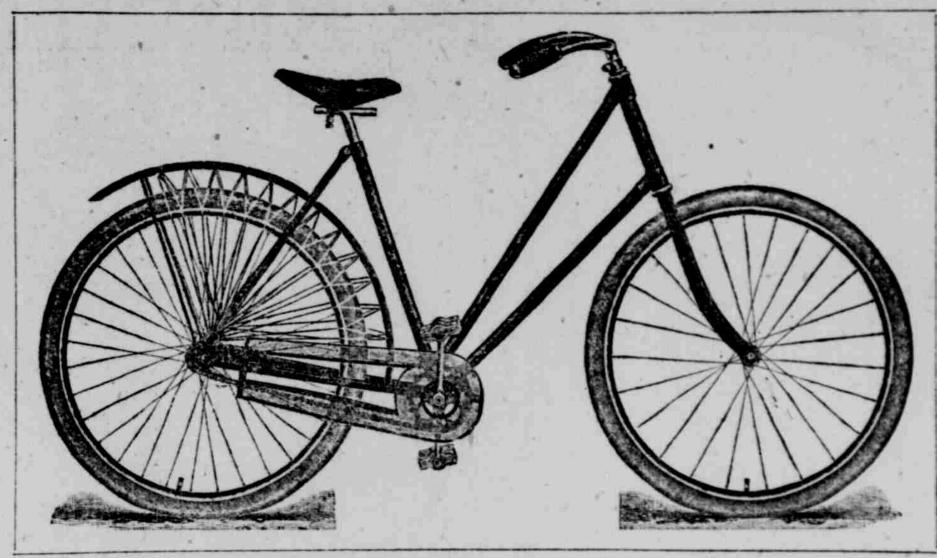

He Refuses, However, to Tell the Result of His Mission Abroad. NEW YORK, May 18 .- Among the passengers on the steamship New York, which arrived this morning, was President J. Hill, of the Northern railread, who has been talked about very much of late in reference to the proposed control of the Northern Pacific road. To a reporter Mr. Hill said: "The reorganization committee of the Northern Pacific railroad has a majority of each class of bonds and is ready to push the reorganization of the road quite vigor-

"Are the Great Northern people interested in the matter?" he was asked. "I met a number of gentlemen who are interested in the Northern Pacific reorganization and our company will be ready to do anything it can to facilitate the matter. We shall be glad to see the Northern Pacific reorganized on a basis where it can carry its financial burden. The three failures of the Northern Pacific, commencing with Jay Cooke, have marked the financial crises, or panies in America, and I think that the placing of the company on a sound financial basis as at present proposed will do as much to restore the credit of American securities, both at home and abroad. as any one thing that can be done any-"Will the Great Northern railroad take

part in the reorganization?"

"I am not prepared to say what the Great Northern will do, further than to state that you may depend on the Great Northern looking out to the best of its ability for its own interests. It will be most glad to co-operate with the bondbolders of the

Northern Pacific to secure the desirable results that I have stated and thus put that company on a sound basis. I do not care to go into the matter any further at this time," continued Mr. Hill, "for reasons that must be apparent to you.' "Did you met J. Pierpont Morgan in Lon-

"No, there is absolutely nothing in that story at all," replied Mr. Hill. "I did not even see him, much less to talk with him.' 'What are your relations with the Vanderbilts, present and prospective?" "We have very pleasant relations with them," answered the railway president "But our relations are also pleasant with the other lines, and we have no desire to make any closer alliances than at present

Excessive Commissions Withdrawn. CHICAGO, May 18.-The Grand Trunk has given official notice of the withdrawal of its excessive commissions on west-bound emigrant traffic. The Grand Trunk had repudiated the agreement reached about ten days ago by the general managers of the trunk lines of the withdrawal of excessive commissions. It is claimed that the orders of the Canadian Pacific were to be withdrawn from the territory on the trunk lines and an agreement reached on the differentials before the excessive commissions were to be withdrawn. It was finally persuaded, however, to separate the differential and commission questions, and the former matter will be settled entirely on its

To Be Reorganized.

CHICAGO, May 18.-It is now practically assured that before long there will be a complete reorganization of the Western Lines' Passenger Association, particularly in the territory between Chicago and the Missouri river. The Missouri Pacific, which declared when the last attempt at reorganization was made that its interests compelled it to object to certain features of the proposed organization, has agreed to the plan outlined by Vice President Newman, of the Northwestern, and it is possible that a meeting will be called for next week to attempt the reorganization.

Order of Railway Conductors. ATLANTA, Ga., May 18 .- The Grand Division Order of Railway Conductors, in session, voted \$25,000 of their \$200,000 cash resources to conductors who participated in the Lehigh Valley strike in November, 1893. Of four hundred in the strike only 189 are beneficiaries of the fund. They have not been reinstated. The session devoted much time to matters upon which no final action

The Vanderbilts and the Reading. NEW YORK, May 18 .- Mr. Cornelius Vanderbilt makes a positive denial of the statement that the control of the Reading railroad has been obtained in the Vanderbilt interest. He says positively that neither he nor his brothers are in any way connected with the purchase or control of the WILL BENEFIT MISSIONARIES.

Rev. F. G. Draper's View of the Results of the Oriental War.

SAN FRANCISCO, May 18.-Rev. F. G. Draper, of the Methodist Episcopal Church. has arrived in the city from Japan, where for fifteen years he has been a missionary. He says that since the war the empire is issuing general passports to American and English residents good for a year, and allowing them to go where they please in the empire. Before the war only special passports were given. He says the result of the war will be an advancement in various ways. One of the most important things accomplished is the acquisition of Formosa. He says: "This is a very large island," and the first thing the Japanese will do will be to appoint a Governor-general and open it It is new and wild in many parts, inhabited by wild and dangerous tribes. It is very rich. Some of the best sugar comes from Formosa, and tea is produced there which has a high reputation among tea drinkers. The Japanese will open the island. I look for them to build railroads all over the island. Our missionaries will doubtless soon go into it in considerable numbers. Altogether Formosa will be a great field. The Japanese are very kind to us as missionaries and to Americans generally. I regret to see by the dispatches that Russia is trying to get some of the fruits of Japanese victory. It is only a

Health Officers Defied by a School Principal and His Pupils.

SEATTLE, Wash., May 18.-The dispute between the boards of health and education in regard to the closing of the Ranier and South schools as a precaution against scarlet fever reached a crisis to-day. Acting under orders from the Health Board, health officer Palmer and officer Corning ordered the closing of the two schools. Principal Gerard, of the former school, refused compliance and told the pupils to enter. A wild scene followed, the four hundred or five hundred children entering at the doors and windows, some of them throwing stones at the officers, and, getting out the hose, gave them a bath. The officers vainly strove to intercept them, and it was not until noon that order was restored by the afrest of Mr. Gerard and the removal of the children from the building. A less exciting scene occurred at the South school, Principal Taylor being arrested for resistance to the order.

Wheat-Carrying Ships Cornered. TACOMA, Wash., May 18.—Grain men here say that English ship owners have cornered the wheat ships of the Pacific coast, and they connect the Fair wheat of San Francisco with the deal. "There is a scheme to hold wheat ships in port." said

render it most desirable. It removes all irritations and inflammations, heals all abrasions of the skin and proves most refreshing. It is invaluable as a protection against contagion. Physicians recommend its use.

It is a non-poisonous, antiseptic soap for the relief and cure of all diseases of the skin and scalp. For toilet use it is twice as good as plain soap for the same price. A perfect soap for the baby. For sale by all lruggists-25c. SANADOR MEDICAL Co., 10 and 12

### Why Leave

To contractors, architects, builders the selection of your "heating," "ventilating" and "humidity" apparatus-when not two in every ten furnace, etc., manufacturers comprehend the first principles of heating, ventilation and the regulating of the humidity of your residence, much less can the first three professions named be expected to be competent, etc. If they are why is the prevalent systems in use so deficient in the first requisites of healthful, sanitary practicability and economy of fuel? At equal price you get 50 per cent, more heat from foot of gas or a pound of coal and better service and more durability than from any other system. We appeal to people who are able and willing to pay for the best, but are too busy to investigate personally. TURNER ZEPHER STOVE CO.,

Phil R. Kershaw, of the West Coast Grale Company, to-day, "until charters are run up to an outrageous figure, and then get the Fair wheat to load at fancy prices. We on the Pacific coast are at the mercy of owners of English bottoms, who have cornered the ships at San Francisco and on Puget sound, besides buying up all the Eng-lish bottoms headed this way."

The negroes of Charleston, S. C., under the auspices of the Colored Ministerial Union, have arranged to hold, next Tues-day, a thanksgiving service to God for "vouchsafing the favor of Judge Goff's de-cision declaring the registration law un-constitutional."
